Chika Amaechi Anya

Senior Full-Stack Developer | Next.js, NestJS, Spring Boot & AI Integrations

amaechichika9@gmail.com · +234 901 114 0929 · Nigeria

SUMMARY

Results-driven Senior Full-Stack Developer and IT Consultant with 9+ years of experience architecting and delivering scalable, mission-critical software systems across fintech, enterprise, and startup environments. Versatile engineer with end-to-end expertise spanning frontend applications, backend microservices, and multi-tenant cloud infrastructure using Next.js, React, NestJS, Spring Boot, and Flutter. Proven track record of designing multi-tenant SaaS platforms, embedding production AI features (LLMs, OpenAI API, Gemini), optimizing high-volume relational and NoSQL databases, and managing robust IT operations. Strong technical leader and mentor skilled at translating complex requirements into reliable, user-centric products.

SKILLS

Next.js • React • TypeScript • JavaScript • NestJS • Node.js • Java • Spring Boot • REST APIs • GraphQL • Flutter • Dart • Cross-Platform Development • PostgreSQL • MySQL • MongoDB • OpenAI API • Google Gemini • LLM Integration • AI Feature Engineering • Multi-Tenancy SaaS Architecture • Subscription Systems • Cloud Deployment • Docker • Git • GitHub • Linux • Tailwind CSS • HTML5/CSS3 • UI/UX Design • Network Architecture • Cybersecurity

EXPERIENCE

Information Technology Consultant — Robernix Industries

2024 – 2026

Advised C-suite leadership on strategic technology roadmaps, infrastructure upgrades, and enterprise software adoption, driving operational cost reductions and modernizing legacy systems. Led end-to-end deployment of enterprise systems with zero-downtime data migrations and seamless integration into existing IT environments. Designed resilient network architectures and performed advanced systems diagnostics to achieve 99.5% uptime while bridging IT operations with corporate business goals.

Freelance Software Developer & Designer — Self-Employed

2025 – 2026

Engineered tailored full-stack applications and digital solutions for 50+ clients across diverse industry verticals in Africa. Built AI-integrated web applications and custom SaaS tools optimized for client workflows. Managed full software development lifecycles from architecture design to final delivery while maintaining high client satisfaction rates.

IT Officer — Enis Group

2023 – 2024

Spearheaded installation and maintenance of multi-site network environments supporting critical engineering operations, sustaining 99.9% uptime. Configured physical and digital surveillance monitoring systems across field and corporate locations to reinforce asset protection. Provided Level 1 & 2 technical troubleshooting for specialized engineering applications, significantly decreasing average resolution times while establishing standardized backup and IT asset lifecycle management protocols.

Software Engineer — Start Innovation Hub

2021 – 2023

Architected, built, and deployed scalable production web applications using Next.js on the frontend and NestJS on the backend, serving thousands of concurrent users. Engineered intelligent AI-driven features including automation workflows, recommendation algorithms, and conversational interfaces using LLM APIs. Designed multi-tenant SaaS platforms featuring automated subscription billing, RESTful APIs, and optimized data models across PostgreSQL, MySQL, and MongoDB. Delivered cross-platform Flutter mobile applications to the App Store and Google Play, and mentored junior developers through peer code reviews to improve team code quality.

IT Officer — Megalectrics

2020 – 2021

Managed end-to-end IT infrastructure—including servers, workstations, and network security—for an enterprise of 100+ staff. Directed hardware/software procurement, system deployment, and security enforcement, maintaining a record of zero data loss incidents through disciplined data backup procedures. Delivered hands-on technical training to non-technical personnel, enhancing cross-departmental productivity.

Software / IT Specialist — LockTech

2017 – 2018

Developed and maintained internal software tools and automated reporting scripts to streamline business operations. Produced digital design assets and user interface elements, while performing network configuration, hardware installation, and end-to-end system diagnostics.

EDUCATION

Accra Institute of Technology

B.Sc., Information Technology & Network Systems
