Chika Amaechi Anya

IT Officer & Systems Administrator | Network Infrastructure & Software Solutions Expert

amaechichika9@gmail.com · +234 901 114 0929 · Nigeria

SUMMARY

Accomplished IT Officer and Software Engineer with over 9 years of experience managing complex IT infrastructures, network operations, and enterprise-grade software systems. Proven track record in maintaining high-availability environments (up to 99.9% uptime), implementing robust cybersecurity protocols, and leading digital transformation initiatives. Adept at bridging the gap between technical infrastructure and business strategy to streamline operations, reduce downtime, and drive organizational productivity through intelligent automation and scalable technology deployments.

SKILLS

Network Architecture & Administration • Cybersecurity & Data Protection • IT Asset Management • System Uptime Optimization • Hardware/Software Troubleshooting • SaaS Architecture • Cloud Deployment • Intelligent Automation • Database Management (MySQL, PostgreSQL, MongoDB) • Technical Support & Helpdesk Operations • Next.js/NestJS • Flutter/Dart • Linux/Docker • IT Strategic Planning

EXPERIENCE

Information Technology Consultant — Robernix Industries

2024 – 2026

Advised C-suite leadership on technology roadmaps and infrastructure upgrades, resulting in modernized legacy systems and reduced operational costs. Orchestrated end-to-end deployment of enterprise software, ensuring seamless integration and zero-downtime migrations. Designed secure, scalable network architectures and maintained 99.5% system uptime while managing complex hardware and network diagnostics.

IT Officer — Enis Group

2023 – 2024

Spearheaded installation and maintenance of multi-site network systems, sustaining 99.9% uptime for engineering operations. Enhanced physical and digital asset security through the configuration of advanced surveillance systems. Reduced IT resolution times by delivering efficient Level 1 & 2 support and standardized backup procedures to ensure operational continuity.

Software Engineer — Start Innovation Hub

2021 – 2023

Architected and deployed scalable SaaS platforms and high-traffic web applications using a modern stack. Embedded AI-driven automation and recommendation engines into enterprise solutions to address client-specific challenges. Optimized high-volume databases and mentored junior technical staff, significantly improving code quality and reducing post-release defects.

IT Officer — Megalectrics

2020 – 2021

Managed full-scale IT infrastructure for a 100+ employee organization, covering server maintenance, workstation configuration, and network security. Implemented rigorous cybersecurity protocols and data backup procedures, maintaining a record of zero data loss. Facilitated technical training programs that measurably increased cross-departmental productivity.

Software / IT Specialist — LockTech

2017 – 2018

Developed internal tools to automate reporting and streamline operational workflows. Performed end-to-end system troubleshooting, hardware installation, and network configuration while providing creative design support for company branding.

Freelance Software Developer & Designer — Self-Employed

2025 – 2026

Delivered tailored AI-integrated web and SaaS solutions for 50+ clients across Africa. Managed full project lifecycles, from requirement gathering and system design to deployment, consistently meeting project timelines and client satisfaction targets.

EDUCATION

Accra Institute of Technology

B.Sc., Information Technology & Network Systems
